No: 2018.7382.0011

Re-stamping

With reference to Your application from 18.04.2018 the application is hereby approved for restamp of materials manufactured to pressure equipment & structural steel, where Kiwa Inspecta works as notified body. Other notified body's should accept this approval. Kiwa Inspecta is notified body number 1727.

Scope of authorization:

The pressure equipment directive 2014/68/EU.

Directive 2010/35/EU, the Transportable Pressure Equipment Directive (TPED).

ADR - the European agreement on the International Carriage of Dangerous Goods Standards within the scope:

EN 1090-1:2009 + A1:2011, EN 13445, EN 13380, AD 2000, EN 12951, EN 12952, ASME

Authorization applies to material groups per CR ISO 15608 with 3.1 certificate per EN 10204.

Authorization applies materials, to be included in the company's own production of pressure equipment or semi-finished products for pressure equipment.

Upon delivery of the semi-finished product to another company re-stamping shall be documented and the document must follow the product.

The authorization is issued on base of procedure dated 06.11.2012 Incoming control, procedure for re-stamping/transfer and responsibility.

By re-stamping/re-labeling, the labeling must add a logo to identify the person of the company which is responsible.

Company management has full responsibility for that the re-stamped certification marks are correct in each case.

Validity 23.04.2019.
